Thank you for your willingness to learn about our Humanitarian project in **Filadelfia, Paraguay in 2018.**

Mission Now Canada was founded by three friends that share a passion for serving those less fortunate. The three of us were blessed to live in a country like Canada, with all the advantages that it provides us. At the same time we recognize that billions live in very dire situations, many times lacking the very basic necessities of life. In 2014 we decided that we would do our part to try to alleviate the suffering of under-represented members of our global family, and so we founded this organization.

Our projects involve recruiting volunteers that want to serve our global family; Dentists, Dental Assistants/Hygienists, Medical Doctors, nurses and anyone who wishes to help. A group of 42 volunteers joined us in Paraguay last year and many from this group will be returning to Paraguay again in 2018. Each volunteer is responsible for raising the money to come on the trip and many, many Canadians contribute so that equipment, medications, glasses, toys and clothing is provided free of charge. Last year in Paraguay about 1200 people were served by the medical and dental teams in 5 days. We also laid a concrete slab for a covered playground in the only public kindergarten in the town of Filadelfia.

Our 2018 trip will be of a similar scope, and each volunteer is responsible for fundraising **\$2200.00** to cover their expenses. This is where the generosity of friends and family plays a vital role in the success of this project. If there is anyway you can assist in funding this trip - by either helping sponsor the person who gave you this letter and/or making a donation for the medical/dental work and building project, it would be greatly appreciated. The extent of your generosity, I will leave to you. Currently donations can be made online at **www.MissionNOWCanada.com** and clicking the "Donate" tab. A tax-deductible receipt will be issued for each donation.

Thank you for your willingness to consider supporting our project.

Sincerely yours,

Bill Santos
